Statement of the Project

The 2021 Fire Burn Reimbursement program is a continuation of the 2020 project. Due to the increased cost in business, the reimbursement for 2021 will remain at the laid in price of propane used plus an additional \$.45 per gallon for labor. By offering this reimbursement to Illinois marketers, the IPGA hopes that fire training units will be able to locate area marketers willing to assist in these important training exercises. Not only will this foster a positive relationship between the firefighters and marketers, but it also emphasizes an industry commitment to safe and knowledgeable handling of propane in emergency situations.

This program will be administered by the IPGA.

Timeline of the Project

Commencement Date:	January 1, 2021
Completion Date:	December 31, 2021
Key Project Stages/Activities:	Project status reports will be provided to the IL PERC at each of their quarterly meetings.
Final Report Due Date:	July 31, 2022

### Cost-Benefit Analysis

With the continued benefit of training the fire industry if a propane emergency would happen, this program as a continuation from previous years will continue to help marketers fund the costs associated with participating in fire training exercises. By recouping the laid in cost of the propane used as well as the additional \$.45 per gallon for labor costs, marketers will be better equipped to participate in safety training events with their local fire departments. This will help promote a better working environment between marketers and firefighters, emphasizing the propane industry's commitment to safety.
